SCARICO COMPLETO RACING AKRAPOVIC **aprilia** AKRAPOVIC COMPLETE RACING EXHAUST **RACING**

2S000556 EVO 1 - CARBONIO EVO 1 - CARBON \$4599

Complete Akrapovic racing exhaust system for track use made entirely from titanium with oval muffler in carbon. The cylinder head mating flanges are machined from solid billet aluminium while the silencer mounting brackets are in carbon fibre. The whole system weighs less than 5 kg and delivers a healthy increase in torque above 4,500 rpm, which is particularly notable from 4,500 to 8,000 rpm, significantly improving acceleration out of turns. Includes dedicated ECU mapping (with three R/S/T settings) to exploit the full potential of the exhaust. Unlike the standard ECU mapping, all three R, S and T maps deliver unlimited power - the S ECU mapping offers smoother response, whereas the R mapping limits torque in the first three gears. For track use only.

KIT STAFFA PER SCARICO **aprilia** ALUMINIUM BRACKET KIT **RACING**

606314M CARBONIO CARBON \$449.00

Carbon fibre silencer mounting bracket. For track use only.

KIT SCARICO SLIP-ON AKRAPOVIC **aprilia** COMPLETO DI RACCORDO **RACING** AKRAPOVIC SLIP-ON EXHAUST KIT WITH RACE TUBE INCLUDED

2S001166 CARBONIO CARBON \$2299.00

The kit consists of the carbon fiber hexagonal section silencer, equipped with a removable Db-killer with racing coupling, without catalyst. It mounts to the OEM exhaust manifold and is fixed to the passenger footpeg by means of a special band included in the kit. Separately, an aluminum or carbon bracket is available to fix the silencer to the bike by removing the passenger footboards. It requires a special map created by Aprilia Racing technicians for maximum competitive performance. For exclusive use on the track (it is without catalyst).

896180 ALLUMINIO ALUMINIUM **aprilia** ALUMINIUM **RACING** \$259.00

Aluminium silencer mounting bracket. For track use only.

aprilia
RACING

APRILIA RACING accessory: intended solely for motorcycles used on circuits closed to public traffic and may not be used for any other purpose.

KIT PORTATARGA REGOLABILE
ADJUSTABLE LICENSE PLATE MOUNTING KIT

606651M ACCIAIO STEEL \$395.95

In laser-cut steel. With white LED license plate light. Gives the bike a sleeker and sportier look. For track use only.

BATTERIA AL LITIO
LITHIUM POLYMER BATTERY

607077M \$1195.95

"Shock Your bike" mounting the Lithium polymer battery that allows a sensible weight reduction (2.5 kg compared to the original equipped one).

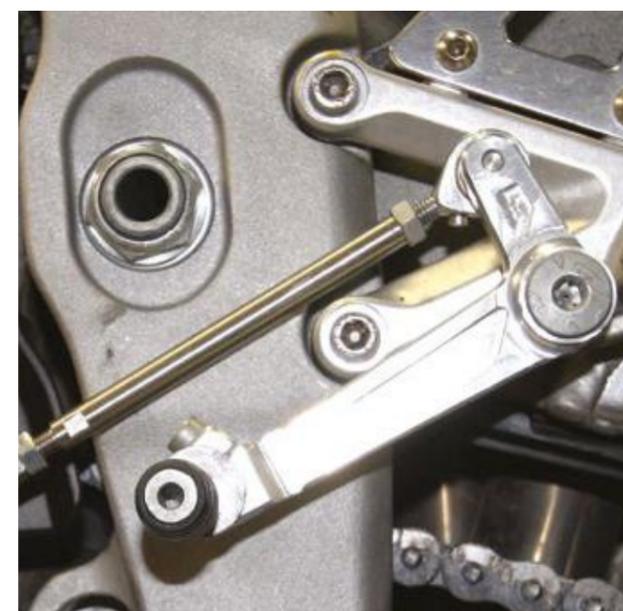

Needs 2S001384 installation kit to be correctly installed.

KIT COPERCHIO FORO TARGA
LICENSE PLATE HOLE CAP KIT

895322 ALLUMINIO ALUMINIUM \$99.95

In laser-cut aluminium. With laser-cut logos. Permits removal of license plate for track use. For track use only.

KIT RACING CAMBIO ROVESCIO
REVERSE GEAR LEVER RACING KIT

2S001040 ALLUMINIO ALUMINIUM \$485.95

Mechanical element that reverses the shift gears mode, in order to have a better driving performance on the exit of the turn when racing on tracks.

COPRISERBATOIO TANK COVER

B046054

TESSUTO TECNICO
TECHNICAL FABRIC

\$295

In technical fabric with carbon effect inserts. With fasteners for small and large tank bags. Tested, approved resistance to oil, fuel and UV light. Ensures ergonomics and stability even at higher speeds. Features a hole for refuelling without removing the cover. With contoured electrostatic tank protector.

BORSA SERBATOIO TANK BAG

897049

TESSUTO TECNICO
TECHNICAL FABRIC

\$299

In technical fabric with carbon effect inserts. With fasteners for tank cover. Tested, approved resistance to oil, fuel and UV light. Ensures ergonomics and stability even at higher speeds. The large 9 litre tank bag is secured to the tank cover with quick release buckles. With upper map pocket and rain hood. A handle and shoulder strap make the bag easy to carry.
