

# V85TT MOTO GUZZI

MOTO GUZZI®

## BORN FOR ADVENTURE

No matter what destination you choose, on your V85 TT it will be an unforgettable trip. Introducing the definition of the first Classic Enduro, it represents a combination of technology, functionality and durability. The V85 TT is defined by the lines of its tank, its side panels and the front mudguard, as well as its new sculpted transversal 90° V twin engine and shaft drive.

V85 TT is dedicated to travel, but also conveys the spirit of adventure, completed by standard off-road equipment including: handguards, aluminium skid plate, high front mudguard, fork stanchion guards and a high exhaust system silencer.

## BEATING HEART

The energy of the new Moto Guzzi engine makes the V85 TT unique. The Classic Enduro has the exclusive air-cooled transversal 90° V twin engine with pushrods and rocker arms distribution and two valves per cylinder, the pride and tradition of the Mandello Eagle. In virtue of its total redesign, the 853cc engine capacity cranks out significantly increased power and torque: 80 HP and 80 Nm.

## EXPERIENCE HI-TECH

The technology defines a complete travelling experience both in daily riding or touring. Choose between the Road, Rain and Off-Road riding modes. These activate a different engine mapping strategy and a specific calibration of the MGCT traction control and ABS, as well as a customised response from the Ride-by-Wire throttle control. All travel parameters can be controlled via the TFT display including cruise control and bluetooth multimedia platform (available as an accessory)
